

Project Design phase 2

Data flow diag & User stories

Date	12 July 2026
Team id	
Project name	Smart Agriculture
Maximum marks	4 marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

Use stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance Criteria	Priority	Release
Farmer (Mobile User)	Registration	USN-1	As a farmer, I can register using my name, phone number, and password.	User account is created successfully.	High	Sprint-1
Farmer (Mobile User)	Login	USN-2	As a farmer, I can log in using my mobile number and password.	User can access the dashboard.	High	Sprint-1
Farmer (Mobile User)	Soil Analysis	USN-3	As a farmer, I can check soil moisture and nutrient status.	Soil health report is generated.	High	Sprint-2
Farmer (Mobile User)	AI Crop Recommendation	USN-4	As a farmer, I receive AI-based crop recommendations based on soil and weather conditions.	Suitable crop suggestions are displayed.	High	Sprint-2
Farmer (Mobile User)	Pest & Disease Detection	USN-5	As a farmer, I can upload crop images to detect pests and diseases.	AI identifies disease and suggests remedies.	High	Sprint-3
Agricultural Officer	Farmer Monitoring	USN-6	As an agricultural officer, I can monitor registered farmers and their crop status.	Officer dashboard displays farmer details.	Medium	Sprint-3
Administrator	User Management	USN-7	As an administrator, I can manage users, crops, and system data.	Admin can add, edit, and delete records.	High	Sprint-4
